FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

Nov. 25th, 10.

Dear Mr. Phipps,

Constable and Co., who published a Life of Pasteur will undertake a re-issue, and will write to you about it, or arrange with your London bookseller. I will write the introduction. Sorry for the delay, but I was diverted by Longmans and Co., who had published another translation of the life.

All well here. We are gradually getting the tuberculosis question settled. Young Astor has started a Special Appeal Committee, and we are arousing a great deal of enthusiasm. We have opened a special dispensary at the Radcliffe Infirmary, for Oxford and the district. We had 40 patients today.

With greetings to Mrs. Phipps.

Sincerely yours,

W<sup>m</sup> Osler
