

From the Regius Professor of Medicine,
Oxford.

Letter (Typewritten)

Nov. 17th., 10.

Dear Archie,

I knew you would be pleased with the Helferich which is a first class book. I know the old professor very well. Do not work too hard and look after your health; get some exercise and plenty of fresh air; you have got to keep yourself very fit. Keep Harry Wright up to the mark; he is a bright fellow, and if he gets into good working habits ought to do well.

Sincerely yours,

Wm. Osler.
