13, Norham Gardens, Oxford.

May 15th, 1911.

Dear Mrs. Bowditch:

I would like very much to have a book from Henry P.'s library, any one of his old ones, which either has his name in it or notes; anything that has some personal association with him, or a monograph which Ludwig has given him, or that he has annotated.

Give my love to the family. Let me know when the boy is to be married.

Sincerely yours,

W<sup>m</sup> Osler.
