Dear Jacobs;

Thank you so much for the interesting SERVETUS P.C. it is a fine piece of work.

I hope you will be able to have a little time in England this summer, though I am afraid you will find London very over-crowded, already the place is packed.

Ellis seems to be better.

I had a most interesting report last evening from Mr. Phipps of the work in Philadelphia. He is greatly pleased.

I will let you know about the Antwerp things. I do hope we have secured the two important letters.

Sincerely yours,

Wm. Osler.
