13 Norham Gardens, Oxford

July 24th. 1911.

Dear Harry T.-

I have forgotten whether I wrote to you since I saw your sister and Miss Garrett a week ago. I had a talk with them about the girl and they are greatly pleased that she saw Mackenzie whose advice seems very sensible.

The local erythema is better, and she is evidently much happier. I daresay the stay in England will be of the greatest benefit.

We are having a very busy time, so many people coming and going. It was nice to see the Thayers, and to see Sister Susan looking so well. Dana was here on Saturday, Jim Putnam and Lichfield of Pittsburg come today.

I am off to the British Medical Association at Birmingham this evening.

Love to the angels.

Sincerely yours,

(Signed)

Wm. Osler.
