

(Letter to Howard A. Kelly)  
(handwriting)

4th  
Llanddulas  
N. Wales

Dear Howard A.

I am so distressed to hear that you are likely to be in the hands of the Mayos. It is too bad, & with all you have in hand! Do let me know (or ask Wm. Mayo to send a post-card) how you get on. You are very tough & I have no doubt will come through all right & be better than you ever were. The Mayos have great success with their professional brothers. I wish I could take an aeroplane to Rochester & pay you a little visit.

You will have about Sept. 20th an open letter which I am sending to Remsen <sup>re</sup> whole time Professor<sup>s</sup>. I have had to go strongly for Flexner's Report & I have spoken my mind freely of what I feel has been his lack of insight into the clinical conditions, & especially, in your department. I am returning your copy this week. We have had a delightful month here in a quiet Welsh valley & such glorious weather.

With love & best wishes  
Ever yours

WM. OSLER
