

(Pasteur group - 7)

CUS417/112.61
(Mr. Henry Phipps)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

(Typewritten)

13 Norham Gardens

November 2nd. (1911)

Dear Mr. Phipps

I cabled you at once about White and the Pittsburg work, both as I said first class, and worthy of your support. The next time you are out there, do ask White to call as I know you would like him. He was with us for two years at the Johns Hopkins Hospital, and then went into practice at Indianapolis, but broke down with tuberculosis and has been completely cured at the Adirondacks. He has the advantage too of having a charming wife.

I am having a little delay in sending out the Pasteur lives to the Medical School libraries, as Glaisher writes that he has some difficulty in getting the copies from Constable, whose stock was exhausted.

With kind remembrances to Mrs. Phipps,

Sincerely yours,

W^m Osler
