

From the Regius Professor of Medicine, Oxford.

13 Norham Gardens, December 11th (1911)

Dear Pratt,

I am delighted with Sylvia, face and toes! she has a wonderfully wise look, she must favor her mother! Congratulations on No. 2. Love to Rosamund.

We are beginning to get things in line for the International Congress in 1913, I am President of the Medical Section, and shall look for the active support of the inter-urbans.

Sincerely yours,

W^m Osler
