Dear Osler,

I was sorry I could not formally announce the time of my resignation of the Readership at the meeting on Saturday. I did not think the meeting was especially concerned with it, and for reasons I need not enter into, I did not think the occasion suitable for a formal announcement as it concerned my position as surgeon to the Hospital as well as well as Reader in the Univ. I rather thought you knew I only held on the post this summer to suit the convenience of the University in the matter of the Diploma course tho' I'm bound to say I was not prepared for all that followed. You asked me to let you know about my resignation, so I will have to say, I have no intention of holding it after this term.

Yours very truly,

Robert Doyne.
