*From the Regius Professor of Medicine, Oxford.*

16th March, 1912.

Dear Fisher,

Thank you very much for the 'Harvey' which I have read with great interest, and your bibliography with a good deal of envy. What a splendid collection you have got! It almost tempts me to send my 1649 Cambridge edition of the Letter to Riolan, but I think I will forbear, knowing that a copy is sure to turn up for you before long.

*Presented to the Regius Professor of Medicine, Oxford, by the author, 1912.*

De Schweinitz's Presidential Address gives a rosy account of your finances.

With kind regards

Sincerely yours,
