

Sing. Jour.

From the Regius Professor of Medicine, Oxford.

20th March, 1912.

Dear Dr. Jacobi:-

I do not think I shall get out to America until late in September, so that I am afraid I cannot promise anything for your Section.

The invitations have been sent pretty broadcast over here I think. The University received one, and we decided to appoint a delegate. I will let you know the names of any men I hear of who are going.

I shall see you in New York in October.

With best wishes,

Sincerely yours,

Wm. Osler

13, Norham Gardens,
Oxford.
