

(Dr. Jesse Myer)

C O P Y.

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

27th March, 1912.

Dear Myer,

I should be delighted to write a brief preface of a couple of pages. I cannot tell you how glad I am that you have undertaken this work. I have always had a great affection for Beaumont's memory, and you will have done the Profession a good service by enshrining it permanently in this way. I suppose you have good photographs of St. Martin. Let me know the date on which you would like to have the preface.

Sincerely yours,

WM. OSLER.
