

(Copy.)

From the Regius Professor of Medicine, Oxford.

30th March, 1912.

Dear Hurd,

Many thanks for sending the numbers of the Bulletin and covers. Ask them please to send me a memorandum.

The Bulletin continues to be very interesting- all sorts of good things in it. It is nice to hear that Smith is getting on so well, and he and Norton seem to work together.

I suppose you heard that Revere had pneumonia, but he got over it very promptly. I have just finished the revision of my Text-book, which McCrae is seeing through the press. I have been at it all winter.

Love to the family.

Sincerely yours,

(signed) Wm. Osler.
