

(Letter to Edward Milburn, Esq.)
(typewritten)

26th June, 1912

From the Regius Professor of Medicine, Oxford.

Dear Ned,

The boy had pneumonia three months ago - a very short and sharp attack from which he recovered very promptly. We are having a very busy summer - so many people coming and going. I was very sorry to hear of your brother Robert's death. We saw Mrs. Campbell here looking very well. My love to you all.

Sincerely yours,

WM OSLER
