C O P Y.

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

30th July, 1912.

Dear Myer,

I am sending you this week a brief introduction. It would have been better and fuller, had I seen your proofs, for which I forgot to ask you.

I am sure your work will be of very great interest and a great credit to you and to St. Louis.

Sincerely yours,

WM. OSLER.
