(Dr. W. S. Thayer)

From the Regius Professor of Medicine, Oxford
31st July, 1912.

Dear W. S.

So glad of your nice long letter.

I hear Howland has left St. Louis, so I suppose he will be glad to take the position at the J.H.H. What a delightful trip you must have had! I have never been on that west coast. You seem to have made the circuit of the island!

We are leaving for Tongue on Monday. Do let us see you if you possibly can manage it - though it is rather far, and out of the way.

Revere comes home today. Love to Sister Susan.

Ever yours,

Wm Osler
