

From the Regius Professor of Medicine, Oxford.

30th October 1912.

Dear Garrison,

Many thanks for the three Francis⁺ papers -- all of interest, particularly the one on clinical instruction, which I read some years ago. Is there a good portrait of Francis at the Library? Some one ought to write a good biography of him for the Johns Hopkins Hospital Bulletin. Why not you!

Love to the old gentleman, and to all the men at the Library.

Sincerely yours,

Wm. Osler.

+ John W. Francis
