

From the Regius Professor of Medicine, Oxford.

6th. November, 1912.

Dear Miss Charlton:-

I am sending you today by registered post another beautiful Diploma - a Bologna one this time, 1607. It is not as good style as the Harvey, of which you have a facsimile, but it is a fine piece of binding, and will be an addition to my collection in the library. Show it to Dr. Francis and to your friend Dr. Adami, and ask the former to compare it with the Padua one.

Did you ever send me a list of the diplomas in my collection? If not, I wish you would, as it would save me from buying duplicates. I enclose you the slip for the catalogue. I hope all goes well with you and the library.

Sincerely yours,

(Signed)

Wm. Osler.

13 Norham Gardens.

Dictated.
