

CUS417/115.11

From the Regius Professos of Medicine, Oxford.

13th Jany. 1913.

Dear Parfitt,

I am so sorry to hear of the little lassie's illness. I hope
by this time she is better.

This pneumo-therax is most interesting.

Trudeau sent me the skiagram of his chest. It is very remarkable.

Love to you all.

Sincerely yours,

Wm. Osler.
