Ruswell
(Letter to Dr.R.P. Park)

20th January, 1913.

OXFORD

Dear R.P.

(Ent Eye)
Thank you so much for your delightful book. I was glad to find that I had only read a few of the essays. You have had the other up your sleeve somewhere all these years! You have done a lot of browsing in your time, and with good results.

I am struggling with the Silliman lectures for Yale, on the evolution of scientific medicine, and your volume will be of help. It was very dear of you to associate my name with the book, and in such a charming way.

Sincerely yours,

WM OSLER

13. Norham Gardens.
