From the Regius Professor of Medicine, Oxford

28th Jan. 1913.

Dear Sir:

The arrangements suggested in your letter of Jan. 15th are quite agreeable to me. I think it will be interesting to have a number of illustrations, of the cost of which I will keep a memorandum. I think the work should have a good sale, and we should, of course, be very glad to issue it here at the Clarendon Press.

Very truly yours,
