

From the Regius Professor of Medicine, Oxford.

31st Mar., 1913.

Dear Nixon:

I think that picture will do perfectly well; they can touch it up a bit at the Press.

No, Bodley's own rule is strictly adhered to - no book can be taken out. You could get them from the College of Physicians, or from the Medical Society in London.

I am off on Saturday to America. Sorry I shall not hear your paper. Do send a memorandum to Colyer Ferguson as he would very much like to hear it and to meet you.

A little stirring of the University pool will do no harm!

Sincerely yours,

W^m Osler.
