LONDON, W.

Dear Sir William,

The enclosed from Herringham is the reply of head-quarters to my query whether our Council would be in order in inviting selected members of the Section to dinner.

This was confirmed by Barlow at the R.C.P. this afternoon. They appear to be very anxious that all public entertainment should be on a simple scale so as not to set a pace which it might be difficult for some foreign countries to keep level with. It appears that many men only accepted office on the assurance that it would not involve them in much expenditure.

Halliburton writes to say that Friday Aug. 8th. would suit the Physiologists for the discussion on Internal Secretions. On receipt of your approval I will write him our acceptance.

Have you had anything further from von Müller and Widal?

Do you propose holding another meeting of our executive before the holidays? The only matters outstanding are to complete the list of openers and to appoint the two sub-committees and agree on the letter to be sent by the council to the various medical departments of universities and hospitals.

Very truly yours

W. Pasteur.

Please return me the enclosure in due course.
