

(Yale University Press)

From the Regius Professor of Medicine, Oxford

14th June, 1913

Dear Hackett,

I am delighted with the paper and page, which will make a splendid book. I find Mr. Hart has not sent the films, as I asked, because he thought that the figures could be just as well prepared from the photographs. If you need the films, cable.

Send me the proof, please, in galley form, as there will be a good many things to add here and there.

Sincerely yours,

13 Norham Gardens

Wm. Osler
