I return Oxford Sept. 15th

Dear Mackall

We have had a deuce of a business with this congress & only just escaped alive. This is a delightful spot - sea & moor & loch. *(we loaf and work while)* Revere fishes all day. He will be charmed with the Walton facsimile [~~of first ed. of Angler~~]. Tom Boggs did not come over - he had a short illness which has kept him at home. I cannot say yet about my German trip. I am doubtful on account of the death of our professor of Physiology & I am chairman of the Board of Electors. It may be impossible to leave. I have the English Powder of Sympathy [by Kenelm Digby, 1658].

Sincerely yours

W^m Osler
