FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD

27 Oct., 1913.

Dear Mackall:

I send you today the catalogue of Dowden's Library which has some interesting Goethe items. I hope all goes well with you. We had a splendid meeting the other day of the Bibliographical Society. Our little friend Crous is still here and has located about 35,000 incunabula!

Sincerely yours,

Wm Osler
