

(Letter to Edward Milburn, Esq.)
(typewritten)

12, Dec. 1913.

From the Regius Professor of Medicine, Oxford.

Dear Ned,

I send you to-day a couple of addresses and I hope by Christmas you will have another which I gave to the Yale Students on 'A way of Life'.

No I was not in Toronto in October. We have had a very busy term - so much to do. I have not yet finished the revision of my lectures on 'The evolution of Modern "medicine"', which I delivered last year at Yale.

The boy is home - just up for his entrance examination.

Love to the family. I hope you will have a very happy Christmas.

Sincerely yours,

WM OSLER
