

(Letter to Adam H. Wright, M.D.)
(typewritten)

6, Jan. 1914.

From the Regius Professor of Medicine, Oxford.

Dear A. H. W.,

It is nice to have your Christmas letter. Sorry to hear of John Caban's death - poor chap; what a lost life! I am glad that Watson is doing well. It was nice to see that Arthur had been elected to the new Surgical College.

We have had a very busy Christmas. Everything here seems going satisfactorily - even the Insurance Act is working. This country would be all right if there were not such wretched pessimists.

Love to the family,

Sincerely yours,

WM OSLER

W.H.E.
