

From the Regius Professor  
of Medicine,  
Oxford.

To Sir John MacAlister.

15, Jan. 1914.

Dear MacAlister,

Col. Gorgas returns from South Africa early in March. Do you think the Society should ask him to give an illustrated lecture one evening and then give him a reception? He has done a great work for the profession.

Sincerely yours,

Wm. Osler.
