From the Regius Professor of Medicine, Oxford.

20, Jan. 1914.

Dear Hurd,

It is very sad to hear of Brady's death. He was a loyal worker for the Hospital. I am glad he had a peaceful ending.

Mitchell, too, had a short and sharp illness, which was a mercy. I had a long Christmas letter from him. He had an extraordinary career.

Give my love to the girls.

Sincerely yours,

(signed) Wm. Osler.
