From the Regius Professor of Medicine, Oxford
28, Jan. 1914.

Dear Miss Noyes,

Thanks for your letter! Yes! the cheque was for 1913. I am sure the Library must be booming! I wish I was on the Library Committee again. What a change you have seen in the old Faculty! I do not suppose there is any library in the country that has made such progress.

I am deep in the study of the earliest printed medical books. You will see an abstract of my address on them in the British Medical Journal of last week.

Give my love to Miss Nichols when you see her.

Sincerely yours,

W.O.
