

NOTES IN BOOKS.
WARREN FAMILY.

Letter from ^{Dr.} J. Collins Warren to W.O.
(Typewritten)

Inserted in bound pamphlets under name of
"Papers by five generations of Warren Family, Boston".

58, Beacon Street,
Boston.

February 11, 1914.

My dear Osler,

Your letter in regard to the coming of Dr. Monod of Paris
duly received. I have written to Dr. Arnold, the Dean of the
Post Graduate School, about it and I will look him up when he gets
to this country.

I am forwarding you by registered mail, through Little Brown
& Company, samples of the work of five generations of the Warren
family, in response to your request. I have put in autographs
of each one of the parties concerned. I was sorry not to be
able to get John Warren's "Mercurial Practice". I have only one
copy and there was no duplicate at the Medical Library. John
Warren was President of the Humane Society of the Commonwealth
of Massachusetts, a position which I hold at the present time.
Fortunately I do not have to make any discourses as was the custom
of Presidents in the olden time.

With kind regards to Lady Osler,
Always sincerely yours,

J. COLLINS WARREN.
