
CUS 417/117. 46

(To Sir Rickman J. Godlee)

Feb. 16, 1914.

(from secretary's notebook)

Dear Godlee:

Gorgas will be in London from the 17th to the 24th March. I do not suppose Gorgas is a specially distinguished surgeon but there has never been an army surgeon who has done such remarkable sanitation work, and he has just been appointed Surgeon General of the U. S. Army. It would be on these grounds than for any special surgical work.

Wm. Osler
