No. 117
(Letter to Dr. C.N.B.Camac)
(typewritten)

25, Feb. 1914

From the Regius Professor of Medicine, Oxford.

Dear C.N.B.,

So nice to hear that Mrs. Camac is more comfortable. I wish she could get a set of new hinges. Give my love to the members of the firm. I suppose they are growing rapidly.

We have had a very busy winter - so many visitors - and I have been occupied with a number of things. We are getting the Historical Section of the Royal Society of Medicine into very good shape. Our plans for the summer are uncertain. I had hoped to be able to get out early, but the National Library Association meets here at the invitation of the Curators of the Bodleian, so that I do not think I can possibly leave until after the meeting, which is at the end of August. I do not know what Grace and Revere will do.

Sincerely yours,

WM OSLER
