(Miss Marcia Noyes)

From the Regius Professor of Medicine, Oxford  
31, March, 1914

Dear Miss Noyes,

I send you another copy of the "Way of Life".

Have we got in the library Sydenham's 'Observationes Medicae', 1676 and Carswells 'Pathological Anatomy', with plates? If not, I could send you both of these, as they are valuable and important works.

Sincerely yours,  
W<sup>m</sup> Osler
