Dear W. S.,

I had a note this morning from a mutual friend of Miss Hamilton's, asking me to find out what you really thought of her. (I do not see why she did not ask you herself!) I remember the sister with great pleasure.

I have learned incidentally that you have turned down the Hospital proposal. Of course, I am sorry, as it will complicate the situation very much; still, it would, I suppose, be very difficult for you to manage. It will be very awkward for any young man to play third fiddle!

Love to Sister Susan.

Sincerely yours,

Wm Osler
