

To Sir John MacAlister.

From the Regius Prof. of Med.
Oxford.

29, May, 1914.

Letter (Typewritten).

Dear MacAlister,

Thanks for cheque!

About the Avicenna matter. We passed a motion at our section approving of the scheme. Should it, think you, receive the official sanction of the President? We are going to ask the co operation of the Royal Colleges, and I think it would be nice to have the work done under the auspices of our Historical Section and of the French Society for the History of Medicine. I am waiting the official sanction from Persia before issuing the circular.

I have written to Boyce.

Sincerely yours,

Wm. Osler.
