

Oxford, 4 June, 1914.

Dear Jacobs;-

So glad to hear that Mrs. Jacobs is better. I am sure the treatment will be helpful.

Are you coming to London on your way back? I hope so. We should dearly love to see you here. The country is looking wonderful.

We have Revere home for this Christ Church examination.

I have just received notice of my election as Foreign Associate of the Academy of Medicine. I did not know until Chauffard wrote that it is such a gilt edged honour, for which there is always an amusing competition.

With kind regards,

Sincerely yours,

Wm. Osler.

Love & best wishes to Mrs. Jacobs.
