

June 9th 1914

(script)

4 Feb. 14.

The Lodge,
King's College,
CAMBRIDGE.

My dear Sir,

The Council of the Senate have requested me to inform you that subject to your consent they purpose to ask the Senate to pass a Grace to confer upon you the Honorary degree of Doctor of Science on the occasion of the opening of the New Physiological Laboratory here. H.R.H. Prince Arthur of Connaught has kindly consented to open the Building on Tuesday June 9th: and it is purposed then to confer Honorary degrees upon him and upon some few others who like yourself have contributed to the advancement of Physiological Science in this country.

I have great pleasure in communicating this offer to you and shall be very glad to be able to inform the Council of the Senate that it is agreeable to yourself.

I am,

Yours very faithfully,

M. R. JAMES

Vice-Chancellor.

Professor
Sir William Osler. Bart.
