

From the Regious Professor of Medicine, Oxford.

9, October, 1914.

Dear Macphail:

The courses are given at the Royal Army Medical College at Millbank, and I will have details sent to you.

We are looking out for the Canadian Contingent. I shall go down and see them as soon as they arrive. I hear they are to be seasoned a bit here before going to the front.

Should you decide to come over 'on spec' come directly here. We should be delighted to see you.

We are up to our eyes in work - all goes well - The spirit of the country is A.l.

Sincerely yours,

W<sup>m</sup> Osler.
