FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD

November 9, 1914.

Dear Fen:

The corrections will be all right. As I stated, it will be a privately printed. It will make a very interesting record for the children and grandchildren. I thought it would be nice to put in a list of the descendants in Canada of Grandfather and Grandmother. I think you will be pleased with the way in which the binder has put together all the letters and papers. They make five volumes. I have reprinted a few copies of the table of contents, which E. B. wishes distributed among the members of the family. He wishes to undertake the cost - but speak to him about any contribution - in which I would gladly join.

Affectionately yours,

W. O.
