

(J. Wm White)

Oxford.

25, January, 1915.

Dear J.W.,

I was delighted to hear yesterday from young Max-Müller that they are translating your Primer into five modern languages. It has evidently been a great success; and they are delighted with your pamphlet. I will see that they send you copies of the translation.

I have been on the road a great deal lately - off to Paignton last week to see the American Hospital, which is in first-class order, and to Salisbury Plain the week before to see the cerebro-spinal cases.

Things look very satisfactory, and I do not suppose that Asia will cause any serious trouble.

Sincerely yours,

W<sup>m</sup> Osler.
