

(Typewritten)

(To Hon. Featherston Osler)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD

Feberuary 6, 1915.

Dear Fen:

Thanks for the list! The book should be ready now in a few weeks. It will make a very nice volume. The illustrations are excellent. I think I have got the genealogical table all settled. I changed the order, as you suggested, and I have got a foot-note about Great-grandfather, Edward Osler, and Joan Drew; and a note about the descendants of his son Benjamin in South Africa and in the United States.

I saw Susie Rule the other day at Salisbury looking quite fat. Norman got here just in time, as I was able to get him a commission at once, and he left for France with a hospital unit on the 1st. Revere is joining that McGill Unit with his friends Campbell Howard and Billy Francis. Meanwhile, he is in the Training Corps here. I enclose you a book-plate which he has designed. It is a bit rough, but it will be all right when it is properly engraved. He is a devoted admirer of Izaak Walton. When that McGill Unit comes across I shall go over to France to help them get settled.

I forget whether I acknowledged the receipt of that £20, which Grace found very helpful.

Thanks for the Trust Company's report. It looks very substantial.

Love to the family.

Affectionately yours,

W
