Dear Packard

I am returning your Ms under separate cover. Sorry for the delay. You will see that I have made a few corrections, particularly about Villanova whose life has been dug out of late years. Hoeber will have had by this time the negative of the 1607 title page & the 1st page of my Harington Ms. I am also sending the negative of the page description of the poem, which is delicious and I have added to your Ms a few extracts from the printer to the Reader. I could not get a decent photo of the Ms I had picked out. The man thought it would not reproduce. The volume will be very nice. I am sure the G - H - cane has been a great success. Who is Hoeber? He seems an enterprising fellow. Is he an American or a German? As I wrote you any introduction by me would be superfluous. Yours covers the ground completely. If you see Fred's widow give her my love. All goes well here & could we only shut up the MP. and the Editors the war would go well enough. 'Twill be a long business, I fear. We have to hold on & either finish or be finished.

Yours sincerely

W<sup>m</sup> Osler
