

(typewritten)  
FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

COS 417/119.106  
(Dr. W. S. Thayer)  
9, April, 1915.

Dear Thayer,

I see there is a movement on foot to erect a monument to the memory of Celli in Room. I have written to Brock to say that I am sure that you and his many admirers in the United States would be only too glad to help, and I have asked him to find out who the secretary is. It would be nice to get half-a-dozen subscriptions from the United States.

Things are rather quiet here at present. We had a delightful week at Torquay. I saw the work of the American Hospital every day. There were a great many chest cases of interest.

Things are evidently going well. The new army is turning out far better than one could have expected. We hope 'St. Chapin' will arrive to-morrow on the 'Lusitania'. It is always a little worrying about the submarines, though for the past week they seem to have been extraordinarily quiet.

Love to Sister Susan.

Sincerely yours,

W.O.
