

CUS 417/119.110

14, April 1915

COPY:

From the Regius Professor of Medicine, Oxford.

Dear Bacon,

I enclose the schedules from the War Office. As you see it makes up a long total without the nurses. It would be very much better I should think to have people from this side from the quartermasters down.

Sincerely yours,

(Signed) W. Osler.

Let me know what Cushing thinks.
