

Mr. Enoch's  
(From sec'y's/notebook)

CUS417/119.115

To Dr. W. W. Keen.

Apr. 15 - 21, 1915.

Dear Keen:

I am greatly interested in your literature which I have sent on as you have directed. Had you been at the gathering at Lincoln's birthday at the Savoy you would have been delighted at the expression of opinion with the attitude of the American people. I think all sensible people recognize that the Government must be neutral, and that at heart nine-tenths of the people are with the Allies. If these newspapers would stop writing their cheap and ignorant editorials it would be a blessing.

I shall be interested to see your letter to Coleridge. We had a nice visit from Potter the other day, who was talking a great deal about you.

Love to the family.

W<sup>m</sup> Osler.
