

15 May 1915

From the Registrar Professor of
Medicine - Oxford

Dear Leidy

I picked up both the
"Flora + Fauna" and the
Rhizopods, and now I want
an original letter of the
author to put in each one,

So please like a good
fellow file a couple from
your collection. And if you
have any duplicate copies
of his papers, send them along

Sincerely yours
Wm Osler
