

(typewriting)
FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

CUS417/119.156
(Dr. W. S. Thayer)

11, June, 1915.

Dear W. S.,

I am so distressed to hear of Sister Susan's illness; but she has wonderful recuperative power. I remember how worried we were years ago. Do drop me a line to say how she is.

We are waiting anxiously the action of the President. I really believe that the U.S. can be more useful as a neutral country. I do not know what we would do here without the help of the embassies.

With love and best wishes to the patient.

Sincerely yours,

W.O.
