

(Typewritten)

(To Hon Featherston Osler)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

July 9, 1915.

Dear Fen:

I am glad you like the book. I think it makes a nice record for the children, and it will interest a good many people. Copies were sent to Carol and to Ferrar Davidson, so that by this time I am sure they have got them. The copies have all gone now to Edmund; if they have not received copies he will, of course, be glad to send.

I am sending you a copy of Professor Gilbert Murray's book on Sir Edward Grey, which is, I think, one of the best things we have published.

We have had Norman and Campbell with us. The latter has just got his commission and is now quite well, and has gone back to Shorncliffe. Norman's leg is all right. He has gone back this week. We have Frank and Belle with us, the former in excellent condition, evidently taking good care of himself. Revere writes very happily from near Etaples, about ten miles south of Boulogne. He is very busy, but it is a first-rate job for him and will give him what he would probably have never been able to get - a thoroughly good business training.

Love to Marion and to the family.

Affectionately yours,

W. O.
